

Students Training

Our Students training program comprises two main parts:

1. Personal Development

- Self Awareness and career direction – Providing an increased awareness of personal preference, values, aspirations, and career choices.
- Networking – Developing interpersonal sensitivity, confidence and ability to learn, motivate and work with different streams.
- Academic Asset Acquisition – Acquiring necessary academic prowess for certain career tracks specialization with help of technical skill development cell.

2. Professional Enhancement

- Sector Leverage & Interconnectivity- Engaging Alumni and Business leaders to enhance student standing in the Sector eco-system.
- Continual Knowledge & Competency Acquisition – Developing a brand model for leadership success.
- Increasing Professional value and Career mapping – Actively Engage with headhunters/ Recruitment firms throughout student's career to map and build their ROI value to organizations at key points in their career.
