About The College

Sagar Institute of Research & Technology was established with a great vision of creating new avenues for Engineering Education and explores the academia of the country under the patronage of Shri Agrawal Technical Education Society emerging as top 10 private engineering colleges in central India. With the most contemporary and pragmatic approach, it aims to change today's youth as great Engineers, entrepreneurs, talented professionals and distinguish scientists. Located at heart of city of Bhopal and ideally nested with natural surroundings, the sprawling campus area is more than 20 acres with separate boys & girl's hostels best infrastructure, state of the art laboratories and other necessary amenities. The team of SIRT faculty members are highly qualified, dedicated to students and always update their knowledge require matching global industrial and technological developments through defined objectives. SIRT is always committed to impart "Quality Education and Excellence" leading various professional degrees like UG & PG Engineering Courses, MBA & MCA.

About the Conference

International Conference on "Recent Trends In Multidisciplinary Research & Innovation" (ICRTMRI-2022) Will give an opportunity to gain knowledge from the eminent speakers and Researchers working in their respective fields .

Scope of the Conference

- The conference aims to bring together leading academic researchers and research scholars to exchange their experiences and research results about all aspects of Science , Technology and Humanities. It will provide a platform to the young researchers to explore something new and worthy in their research areas .
- Budding researchers will be exposed to the recent developments in their research areas.
- They will get an opportunity to present their research work and interact with the eminent scientists.

Thrust Area

- Nanotechnology, Nano electronics and Nano photonics
- Sensors, Modeling and Simulation
- Lasers and Holography Ceramics
- Biophysics, Cosmology
- Environment and green materials
- Batteries and solid electrolyte.
- Energy harvesting Astronomy and Astrophysics Spectroscopy
- Data Science and Machine Learning
- Robotics Cloud Computing
- Data Mining Big Data Analytics
- Operating System
- Artificial Intelligence and Expert system
